Climate control for the shop

Not all of my assets for successful woodworking live in my tool cabinet. I hold this insulated tumbler on par with both my block plane and pocket square when it comes to shop efficiency. During the frigid winter months, it keeps my tea piping hot all morning. This is especially important on the days I choose not to run the heat. I can also fill it with ice cubes and water to help keep hydrated throughout those hazy, hot summer afternoons. The tight-fitting plastic lid keeps spills to a minimum, and the magnetic slide seals out dust, limiting my fiber intake to what I actually decide to ingest. You can get this shop essential at Yeti's website for about 35 bucks. ■

NEW FROM FORREST!

Ply Veneer Worker Blade

Designed Specifically for Cutting Plywood and Plywood Veneers

This commercial-quality blade is ideal for rip and cross cutting two-sided plywood, whether finished or unfinished. It is also perfect for cross cutting solid woods. In fact, there's no comparable blade on the market today.

The Ply Veneer Worker (PVW) uses the same high-precision technology that's behind our popular Woodworker II blade. Designed for cutting wood products only...

- **The PVW's list price is $23 less than our Duraline Hi-A/T.**
- **It delivers flawless cuts without splintering or fuzz.** You never have to worry about chip-outs on top or bottom surfaces. No scoring blade is needed.
- **It lasts up to 300% longer between sharpenings.** The PVW is made of super-strong C-4 micrograin carbide for extra durability. Like other Forrest blades, it is *hand-straightened* to ensure perfect flatness and has a side runout of +/- .001.

The PVW is superbly engineered. It features a 10° hook, 70 teeth, and a high alternate top bevel grind. You can count on this exceptional product to give you vibration-free performance and long life.

All Forrest blades, including the new PVW, are *made in the U.S.A.* and have a 30-day, money-back guarantee. So order today from your Forrest dealer or retailer, by going on-line, or by calling us directly.
